Professional Experience

Motionstrand (Escondido, CA)

Sr. UX/UI Designer, October 2014 – April 2015

Translated consumer needs into practical terms and relatable designs that aligned with the client's vision.

- Planned and developed UX services within consumer project proposals
- Educated consumers on UX and usability methodologies
- Pitched and presented ideas to a variety of clients, including C-level executives
- Lead project development with UX recommendations; actionable improvements from user testing results, best practices, information architecture, workflows and wireframes
- Practiced user-centered design methods and techniques such as usability testing, competitive evaluation, task analysis, interaction modeling, personas, card sorting, and surveys
- Researched and understood user behavior within existing applications and how to improve upon the current UX/UI
- Created UX project template deliverables; analytics, user testing results, wireframes, and prototyping

References & Portfolio samples

Teamwork Athletic Apparel (San Marcos, CA)

User Experience Designer, October 2013 – October 2014

Directed and coordinated user experience requirements and user interaction designs through information architecture, interaction, and visual design for Business-to-Business (B2B) and Business-to-Consumer (B2C) targeted channels.

- Lead the UI/UX development to creatively solve complex visual and interaction design challenges for web, mobile, and tablet
- Crafted and designed user functional specifications; interaction flows and scenarios; user interface/interaction wireframes, mockups, and prototypes; personas, storyboards and scenarios
- Executed design comps, created visual prototypes, and built application front-end interfaces using HTML/CSS
- Conducted and coordinated user research and usability testing efforts; translated research findings into tangible designs
- Established and maintained best practices and design methods for art direction while staying in alignment of rich media techniques, emerging technologies and latest web trends

HD Supply (Poway, CA)

Web UI/UX Designer, September 2008 – October 2013

Designed high-impact, user-centered Web applications for Business-to-Business ecommerce website.

- Conception and design of UX for Pay-Per-Click (PPC) campaign which resulted in a 400% conversion rate
- Created site maps, wireframes, and paper/HTML prototypes to evaluate the effectiveness of design solutions against scenarios
- Performed quantitative usability tests on usability designs
- Collaborated and assisted analytics team in A/B testing
- Researched and applied best practices on email template design
- Lead liaison between internal and external development of mobile app, mobile and tablet website design
- Art directed branding, identity and graphic design for mobile application and website
- Lead creative team in development of SOP and style guide documentation
- Improved workflow processes while leading team in implementing new project tracking application

Graphic Designer, May 2006 – September 2008

Managed and created complex time sensitive projects from concept to completion while serving as a liaison between internal customers and external vendors.

RE/MAX United (San Diego, CA)

Graphic Designer & Marketing Coordinator, January 2005 – May 2006

Created a cohesive image for a busy and high-producing real estate group who's primary target audience consisted of residential properties.

- Designed and rebranded all marketing materials such as: flyers, newsletters, brochures and promotional mailings
- Managed a team of marketing assistants while successfully increasing marketing locations, production and client base by 50%
- Coordinated the design and production of monthly mailings
